OPENING MEETING

THE COUNTY TEACHERS' ASSOCIATION IN SESSION TODAY.

ADDRESS BY OAKERSON

A Large Attendance Present — The Best Meeting of Teachers Yet Held.

The first session of the Nodaway Teachers meeting was held Friday morning in the High school building, attended by many of the teachers of the county. The session was opened by devotional exercises, conducted by the Rev. J. S. Fort of the First M. E. church of this city.

County Superintenent William Oakerson delivered the welcome address and extended to the teachers a very hearty welcome from the business people of the city, the public schools, the State Normal school, and the county superintendent of schools. He said that this cordial welcome was not merely extended to the people who come to Maryville on account of this important event, but it is truly manifested by the decorations in the windows of the business houses of the city. Mr. Oakerson expressed his regret that Superintendent C. A. Hawkins, who was to have delivered the address of welcome, was unable to do so on account of sickness.

Superintendent O. R. Hunt responded to the welcome with an excellent address. He expressed the sincerest appreciation of the teachers for this cordial welcome from the business men, and teh schools. He spoke further of the importance of such a meeting as this and said that each member should congratulate himself upon having the privilege of being a member of this body. That the work engaged in by these people was especially important from the fact that the ten years of a child's life during which time they are under the direction of the teachers is the period in which they are fitted for citizenship. He insisted that meetings of this kind were of vital importance to every teacher, and that no opportunity of attending the same should ever be neglected. In closing he expressed again the thanks in behalf of the teachers for the provisions which have been arranged for the entertainment during this meeting.

An illustrative lesson in second grade reading was then given by Miss Ada Albert, and eighteen bright little

children of the city school. This proved to be of great interest and the teachers gained many points from this illustration that will be of practical value to them in their school work. The children read splendidly and discussed the lesson very intelligently. It was a clear demonstration of some splendid work in primary reading. Miss Albert answered several questions that were asked at the close of the recitation and gave them some excellent plans for preparation in the teaching of primary reading.

Prof. W. R. Lowry read an excellent paper entitled "Literature in the Rural Schools."

President H. K. Taylor of the State Normal gave an excellent address on the unity of educational systems. Before entering upon his subject, President Taylor extended an invitation to the teachers to inspect the new Normal building at the close of the afternoon session of the meeting. He also expressed the regret of those connected with the Normal that the program which had been planned for the reception at the Normal Friday afternoon cannot be carried out on account of the failure to get the electric fans for conducting the heat to the different parts of the building installed. But he assured them that the building would not be uncomfortable while moving around and a committee would be ready to conduct the visitors through at the close of the meeting at the High school.

In his address President Taylor spoke of the necessity of unity in school work to bring about the best results, also of the great importance of intellectual training while the child is young. He drew an excellent lesson of united effort from the scripture referring to the reconstruction of the walls of Babylon, and how by this law of unity, due to the greatest achievement in Jewish history was wrought out. He said this co-operation of individuals was necessary for the perfection of the school system, as we would like to see it. He also spoke of the necessity of a realization that as much depends upon the work done in preparation for the primary work as for the advanced work.

He also said he was in favor of keeping the child in High school and not sending them away to college and universities at the age of 16. But that he was also in favor of the child receiving all the training necessary for the highest achievement possible and that at the public expense.

He spoke of the Normal as a school for professional training and said when it posed as any other unit of education, that it was in possession of a false ambition.

President Taylor in speaking of this Association of Nodaway teachers, said that the history of the county had been written too soon and that he would like to see this important chapter that is being made included in this history. He also said he hoped to see Nodaway county the best represented at the state meeting which will be held Nov 10-11-12 at St. Joseph.

The address given by Prof. R. H. Emberson of the State University at Columbia, Mo., was much enjoyed. He said in his twenty-two years of school work he had not gotten away from the interests of the rural school. He spoke of the difference of the life of the business man in the city and the man on the farm, also the difference city and the one who has been reared in the bay who has been reared in the in the country. Each he said, have been trained by different experiences, and it is not possible to have the best course for the rural school patterned after that of the city school. The rural school has changed, he said, from the conditions that existed when he was a country boy going to the rural school and dressed in the Old Missouri style, and before the day of rats and mice, when the girls wore their hair plaited down their backs.

He spoke of an ideal system of school which he had seen in operation in Illinois and pointed to this as an example of the kind he wished to see in Missouri.

He said if it were in his power he would abolish every third grade certificate and require at least two years High school as a qualification to teach.

Exhibits on Display

The corn and domestic science contests and the school exhibits which are on display at the public school building, are very fine and a great deal better than expected. The public is cordially invited to inspect these displays.

Bazar Was Big Success.

The bazar given by the ladies of St. Patrick's parish Wednesday and Thursday closed Thursday night with a clear profit of a little over $525. This sum gives the ladies over $1,000 they have raised during a very few months past for the benefit of the new convent school, and they are not more happy over the result than is their pastor, the Rev. Father Niemann. Thursday after supper was a pleasant social time when the various articles raffled off were presented to the lucky holders of the tickets. The hand-painted vase done by Mrs. Edward Hunt of Lamar, Colo., was drawn by Bruce Montgomery; the white centerpiece embroidered by the Misses Sara and Bessie McGettigan, daughters of Judge M. M. Miss Kate Berry, living west of Maryville, who contributed a Battenberg centerpiece that was also raffled off, held the number that drew her own piece of work. Have You Met the Fortune Hunter Yet ?

Milady's Mirror

"Now we're busy teaching women to be hobble headed," said a woman who takes care of the hair. "With the hobble skirts the old style of hairdressing looks funny. It gives a woman a top heavy look to have her hair dressed high with a pompadour and puffs while her skirt is drawn in around her feet in hobble fashion. So we devised the hobble headed hairdressing.

"To dress your hair hobble style you take it and part it in the middle. Then you drape it back from the face in some soft way, and finally you bunch it at the back in a big mass, around which you twist a coil of hair or a band of ribbon or anything else that may strike your fancy. This makes the hobble.

"While a hobble may sound awkward for the head, it is really the most becoming coiffure we have had in years, for it does away with the top heavy chorus girl pompadour and makes a woman's head look more nearly ideal. Her head keeps its shape, and the knot at the back suggests to the uninitiated that it is merely a method of twisting up her own hair."

For Oily Skins.

When one's skin is oily do not try to conceal it by excessive use of powder. It makes the face pasty and clogs the pores.

There are various drying lotions that are excellent for this condition. Wiping off the face with pure alcohol has a drying effect on the skin. Various good lotions are sold for this purpose, but a teaspoonful of borax in a basin of water is excellent.

If you fear pure borax try this lotion: One tablespoonful of powdered borax, two tablespoonfuls of glycerin and a quart of camphor water. Dip a soft linen cloth in this and mop the face several times a day.

Do not make the mistake of using spirits of camphor, which is diluted in alcohol and much stronger. Camphor water is made by letting two ounces of gum camphor stand in water for twenty-four hours. The lump can be used repeatedly, as its size is little decreased.

What Are Your Eyebrows Like?

Straight and level eyebrows denote mentality. Musicians often have these. Brows that meet over the nose usually prove the love of authority and mark a capable person.

Beautifully arched brows usually adorn a rather empty forehead and indicate an opposite degree of intelligence to that shown by the long, straight brow.

When the arch is but slight the forehead may be strong, full of individuality and with a fine central spread. When like this, however, there is usually a lack either of time, tune or locality.

Very fine, distinctly outlined brows indicate an artistic nature.

Much elevated eyebrows show artistic perception of color and shape, good taste, organization and mathematical powers.

A Toilet Economy.

The particular hostess now uses individual pieces of soap in her guest room and gives to each new guest a fresh piece. Where much entertaining is done this means numerous odds and ends of fine soap.

One woman has hit upon the plan of using this for the children in a wire soap shaker, such as is found for dishwashing. The tiniest pieces can be thus utilized. A basin is filled with warm water and the shaker agitated until a thick lather is formed.

Another way to use up small pieces of fine soap is to put them into small cheesecloth bags and use as one would a bran or almond meal bag.

Low Shoe Peril.

The constant wearing of low shoes and slippers will spoil the shape of the ankles, especially if one must be much on the feet. An exercise which gives shapeliness to the lower limbs consists in standing straight, hands on hips, heels together, then rising slowly on the tips of the toes while drawing in the breath; then while exhaling it slowly return to the first position, feet flat on floor. Do this every morning and evening for ten minutes; also as much as you can wear high laced boots, drawing the laces as snugly as comfort will permit. Draw them in by degrees, not all at once.

Perfuming the Hair.

The perfumed hair cap has met with favor with women who are fond of dainty conceits, and one may be easily made at home. After the shampoo and at night these caps should be worn, and the fragrance is lasting. Fashion them after the style of the Dutch bonnet. Between two layers of silk put a sheet of cotton batting with plenty of sachet powder, using always the same perfume. Many women prefer the Florentine orris, but when you find a perfume to your liking use it all the time, as it bespeaks more refinement than having all sorts of essences about your garments.

The Snug Fitting Coat Collar—It's Clothcraft!

THE coat collar is one of the things that make a hit with you when you wear *Clothcraft*. It sits up to your collar as if molded to it.

But it is only one of the Clothcraft points of superiority. There's the style—the shape—the non-breakable coat front—the non-sagging pockets.

And there's the guaranty of the maker—and ourselves—that Clothcraft is pure **All-Wool**—nothing else.

Yet you get your Clothcraft suit at $10 to $25. Wouldn't it be foolish to take a chance with ordinary clothes—when you can get Clothcraft with the *guaranty*—for the same or less.

30 Boars and 40 Gilts

February, March and April farrow all weighing over 200 lbs and half of them crowding 300 lbs. They are the **Real Big Spotted Kind,** like your grandpa used to raise, and have more bone, stretch and size than any lot ever offered at public sale in Northwest Missouri.

Plenty of boars and gilts not akin so that you can get the foundation for a herd of the kind that win at the shows and top the market.

This is the herd that attracted so much attention at the Maitland Fair and St. Joseph Stock Show this fall. And our prize winners at those shows will be on exhibition. Also Pawnee Pete, the biggest yearling boar ever seen in these parts will be on parade with a lot of his brothers, sisters and about 60 of his own progeny.

SIGANLS OF DISTRESS.

People Should Know How to Read and Heed Them.

Sick kidneys give many signals of distress.

The secretions are dark, contain a sediment.

Passages are frequent, scanty, painful.

Backache is constant day and night.

Headaches and dizzy spells are frequent.

The weakened kidneys need quick help.

Don't delay! Use a special kidney remedy.

Doan's Kidney Pills cure sick kidneys, backache and urinary disorders.

Maryville, evidence proves this statement.

Mrs. M. Lahr, 212 W. 5th St., Maryville, Mo., says: "I cannot say too much in praise of Doan's Kidney Pills. This excellent remedy promptly relieved me of backache and other symptoms of kidney trouble. During the several years that have since passed I have had no return attack of my complaint. I consider Doan's Kidney Pills to be a specific for kidney disease.'

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

FOOD HEALTH—GOOD LOOKS.

Here is the Way to Help Nature and Regain Your Youthful Beauty.

Unwholesome faces are always unhealthy faces. Boils, pimples, sallowness and wasted features all show nature's losing fight against the skin's lack of vigor, and poor circulation. Feminine readers who have endeavored with varying success to improve their complexions by means of massage, will be delighted to know that with Crown Cream and a new toilet appliance called the Harlan Beauty Cup, every one becomes at once an expert at massage. More than that, the desired effects are more quickly secured, wrinkles disappear as though by magic, and the results are permanent.

Crown Cream has long had an enviable reputation as the best and most effective face cream made. It can be, and often is used without massage, as a beautifier pure and simple, because its action is beneficial in every way, without dependence upon the massage feature. However, all objections to massage on the part of the inexperienced, are overcome by the use of the Beauty Cup. Its mild vacuum action is so much better than is possible even by expert hand manipulation, that it quickly wipes wrinkles away, and aids Crown Cream in giving tone and health to the skin tissues. The Beauty Cup is sold by all dealers for 50c, and this is the price of the Crown Cream per jar. These are toilet essentials which every woman should possess. Inquire Chas. Love, Druggist.

"One Good Woman" has its setting in New York City and is full of present day situations and characters. New specialties will be introduced between each act. LITTLE BALD SPOT.

Men Be Sensible, Don't Let It Grow More Conspicuous.

If you are beginning to worry about that spot right on the top of your head, where the hair is thin or has disappeared entirely;

Don't worry any longer.

Go to the Koch Pharmacy at once and get a 50-cent bottle of Parisian Sage.

If that won't check the falling hair and cause new hair to grow; nothing on this earth will.

Dandruff causes hair to fall and baldness; dandruff germs cause dandruff.

Parisian Sage kills the germs; eradicates dandruff; stops falling hair and itching scalp or money back at the Koch Pharmacy.

It will cause the hair to grow thicker, more luxuriant, and puts so much new life into it that it grows lustrous and beautiful.

The girl with the Auburn hair on every package. Fifty cents at the Koch Pharmacy and druggists everywhere. Mail orders filled by America nmakers, the Giroux Mfg. Co., Buffalo, N. Y.

Constipation Cure Free

With the first signs of constipation you resort to the home methods of relief, such as hot or cold water on arising, lots of stewed fruit with your breakfast, etc., but what do you do when these fail?

The majority then start on salts and purgative waters, then change to cathartic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you should try just once again, but try something practical and sensible, a remedy made and intended for the purpose you are trying to accomplish. Such a remedy, as thousands can testify, is Dr. Caldwell's Syrup Pepsin, which is guaranteed to be permanent in its results. Its ingredients are such that by a brief use of it the stomach and bowel muscles are trained to again do their work normally, so that in the end you can do away with medicines of all kinds. That it will do this Mr. G. Y. Dodson of Sanville, Va., will gladly attest, and so will Mrc. S. A. Hampton of Portage, O.

To those who are still skeptical there is a way to prove these assertions without a penny of expense: Simply send your name and address to Dr. Caldwell and obtain a free sample bottle. After using it, if you are then convinced it is the remedy you need, buy a fifty cent or one dollar bottle of your druggist and continue to use it for a brief time until cured. The directions are simple and the dose is small. It is pleasant to the taste, does not gripe and is promptly effective, and these statements are guaranteed or money will be refunded.

This remedy is over a quarter of a century old and is personally taken by more druggists than any other similar remedy on the American market. Because of its effectiveness, purity and pleasant taste it is the ideal laxative remedy for children, women and old folks generally.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, 1,509 Caldwell building, Monticello, Ill.
